MARYLAND
AUTO INSURANCE

If you've been canceled or denied by other insurance companies, we'll cover you.

Maryland Auto Insurance was created by the state of Maryland to help keep residents on the road legally, safely, and simply. Whether you need coverage for a personal vehicle or a commercial vehicle, Maryland Auto can help you get the coverage you need to keep moving forward – in your life and in your business.

Maryland Auto is committed to offering our commercial auto policyholders the coverage you need for your business. If you've had a difficult time getting commercial auto insurance in the standard market, we're here to deliver the limits you need for the jobs you want.

Maryland Auto authorized providers. They're not just *like* other agents. They *are* other agents.

Maryland Auto providers are the same ones who sell insurance from those well-known companies (yes, the ones you see in TV advertisements). Purchasing a Maryland Auto Insurance policy works the same as purchasing a policy from another company. In fact, if you've bought auto insurance from an agent before, there's a good chance you can purchase a Maryland Auto policy from him or her—so be sure to ask your agent if he or she is an authorized Maryland Auto agent.

Maryland Auto has a network of more than 1,400 agents located throughout the state who can help you with your personal auto and commercial auto needs. Visit our website to locate an office near you.

Delivering the higher limits you need for the jobs you want.

We offer a variety of liability coverage options to meet the needs of your business. We don't want you to be held back due to not having the limits you need to qualify for a job. The following options are available for eligible vehicles:

Split Limits

- Available from \$30K/\$60K/\$15K to \$100K/\$300K/\$100K

Combined Single Limits

- \$500K
- \$750K
- \$1M

An authorized Maryland Auto provider can assist you with eligibility details and available liability limits for your business needs.

Commercial drivers spend a higher percentage of time on the roads than other drivers.

As a commercial driver, you face a higher risk for accidents. Maryland Auto has identified behaviors that most commonly lead to reported accidents and injuries. Implementing safe driving practices and taking preventative steps can reduce these risks and help make the roads safer for all Marylanders – and help keep your insurance premiums down.
